dutch design **pottery** and more.

Pottery pots is a global brand with Dutch roots, developing and selling high quality planters and related products, from jumbo pottery to small accessories and from glossy to rough finishes.

The company has its headquarter, showroom and warehouse in Aalsmeer, the Netherlands. The North and South American market is operated from our showroom and warehouse in Burlington, New Jersey and our showroom in Atlanta, Georgia; both in the United States of America. We also have a warehouse in Vietnam, from which we ship containers.

Since our foundation in 2008 we aim for an extensive assortment that is based on the belief that design should be available for everyone. That is why we are always looking for the perfect balance between design, quality and price. Every pottery pots product is designed from a simple but clever perspective. We believe in basic forms and shapes, without thinking of it as boring. This no-nonsense way of thinking and designing is assigned to the Dutch identity, and is widely known as 'Dutch design'.

bohemian collection

Inspired by travels and stories, the bohemian collection combines natural colors and crafts to planters that are made with a new unique process. Traditionally woven baskets are turned into strong planters by using cement on the inside. Due to the natural composition of the material, some color and size variations may occur.

cement collection

The cement collection is a small collection of bestsellers in a special finish. The finish of the planters feels like a newly plastered wall. The smooth finish with uneven color shades, give the products in this collection their cool and contemporary look. The robust ficonstone material is suitable for both indoor and outdoor and can therefore be placed in any environment.

rough collection

The rough collection is the rebellious one of the pottery pots family. With its 'less is more' mentality, the rough collection focuses on the tough character of the pot. The collection, with a fiberclay basis, consists of modern planters with the same characteristic finish in many different colors.
